

## 24UAM311\_Exp4: Develop Login and Registration Screens with Form Validation Using React Native Components and Hooks

The first screenshot shows the login screen with the heading "Welcome back! Please login". It features input fields for "Email" and "Password", a blue "Login" button, and a link "Don't have an account? Register".

The second screenshot shows the registration screen with the heading "Create Account" and subtitle "Register to get started". It includes input fields for "Name" (filled with "Arya"), "Email" (filled with "arya%gmail"), "Password", and "Confirm Password". A red error message "Enter valid Email !" is displayed below the email field. A blue "Register" button is at the bottom, with a link "Already have an account? Login" below it.

The third screenshot shows the registration screen with the same inputs as the second, but with a red error message "Password do not match !" below the password field.

The first screenshot shows the registration screen in a dark theme. The "Name" field is filled with "Arya", "Email" with "arya@gmail.com", and "Password" with "....". A red error message "Password must be at least 6 characters !" is shown below the password field. A blue "Register" button is at the bottom.

The second screenshot shows the same registration screen with a white success dialog box in the center that says "Success" and "Registration Successfull!". The dialog has an "OK" button in the bottom right corner.

The third screenshot shows the login screen in a dark theme with the heading "Welcome back! Please login". It features a dark blue "Login" button and a link "Don't have an account? Register" below it. A white success dialog box is overlaid on the screen, saying "Success" and "Login Successful !", with an "OK" button.
